EDMONTON, ALBERTA, TUESDAY, JULY 21, 1953

Dispute Mars Everest Conquest

CENTRE OF A DISPUTE as to who was the first to reach the top of Everest, the world's highest mountain, and as to who deserves most credit for the conquest of the mountain are Sherpa Tensing, left, and Sir Edmund Hillary. Sir John Hunt publicly stated that Hillary was the first to reach the top.

Record Crowd Hear Prime Minister Open Edmonton Jubilee Exhibition

EDMONTON — Though cloudy skies and threatening weather curtailed the overall attendance at the Exhibition turnstiles, a record number of patrons were on hand in the grandstand to take in the chuck-wagon races and hear the prime minister's opening address.

A crowd of 37,106 attended the opening day's activities at Edmonton's 75th Anniversary Exhibition, 239 less than last year's 37,345 patrons, grand-stand activities showed an increased number of spectators pass through their turnstiles. A total of 8,502 were on hand for the evening attractions.

Race fans this year pushed more money through the wickets Monday than did last year's opening crowd, \$111,042 compared to last year's \$99,971. There were more bettors on hand last year too, 4,005 compared to this year's opening day throng of 3,814.

Crowds started to move into the fair grounds shortly after the huge parade in the morning, and crowds were still present at midnight. The mid-way and concession booths were ready for the hordes of happy fair-goers and during the supper hour the concession booths did a rushing business.

In his address to the more than 500 patrons, the Prime Minister praised the spirit and thought and effort that went into the Exhibition. Introduced by Mr. Lawrence Rye, exhibition president, the Prime Minister was presented with a scroll outlining the occasion of the visit and the honor felt by the association and citizens in having him open the anniversary celebration.

Expressing his regret at not hav-

Abbott Doesn't Mess With Own Income Tax

VANCOUVER (BUP)—Federal Finance Minister Douglas Abbott admits he doesn't fill out his own income tax form.

In Vancouver on a political tour Abbott said he leaves it to his secretary to figure out how much he owes the government. Abbott added "I'm not so hot on household finance, either."

The U.S. Commerce Department reports American travellers spent about \$1 billion touring the world last year with France and Italy and the United Kingdom receiving a major share of the American travel dollars.

Crossfield News Briefs

Mr. and Mrs. Jim Krouse, Burnaby, B.C., Mr. and Mrs. Ted Wommos and Andy of Westward Ho, were all recent visitors at the Ronneberg home.

Last Sunday the Ballams and the Foxes spent a cool afternoon at Bowness.

Mr. and Mrs. Charlie Laut, Hamilton, motored to Crossfield where they spent a short holiday visiting friends and many relations. Charlie flew back to his work on Sunday last and his wife and sister motored on to enjoy Banff and vicinity before returning East.

Mr. and Mrs. Mair, Calgary, formerly of Crossfield, left recently by car for a holiday in the States and Vancouver. They hope to meet their son Harold and family in the States and then resume their trip to B.C.

If you care to renew your subscription to your local paper, see or write your local editor who will send a receipt by return mail.

Summer School has been in session all last week in the Catholic Church, preparatory to a first communion class to be held July 18. Father Hamilton and two instructing sisters from Edmonton were in charge.

Miss Daisy Robinson has been renewing old acquaintances in town last week and was the guest of Mrs. Eileen Bills.

Mr. Bernard Nixon of Victoria, Mr. and Mrs. Gordon Breckel and son, of Medicine Hat, Mrs. Ethel Nixon, Calgary, Hon. and Mrs. Ivan Casey, Edmonton, were all recent visitors at the Bert Bannister home. Hon. and Mrs. Casey were enroute home after having officiated at the opening of the new 4th St. subway in Calgary.

Mr. and Mrs. E. Van Holland of Rocky Mountain House were recent week-end visitors at the home of Mr. and Mrs. Keith Bannister, Mrs. Van Holland being a sister of the latter.

Mrs. Chas. Northcote spent a short stop with her sister, Mrs. Garnet O'Neil, leaving her daughter Betty Ann to enjoy a visit at the farm.

Mr. Bob Hanson is recovering after having cut his foot in a power lawn mower.

Rev. Pringle from Oyen was recently inducted in the United Church of Crossfield. Those officiating at service were Rev. Ball, Rev. Parsons and Rev. Macleod.

A tasty lunch was provided and served later in the church parlor, where many were privileged to meet Rev. and Mrs. Pringle, who are noted for their untiring efforts in church work.

Mr. A. Bailey is to be thanked for his service in keeping the basement of both manse and church pumped free from water. This has been and continues to be a battle in our town, where almost every home has had to procure and use a sump pump.

Mrs. Lennon has moved to a new suite in Hillhurst, Calgary.

Lorna Bland, talented young pianist of 10 years, in grade VII at school and in grade VI music, received first class honors in her musical examinations with a passing mark of 89. In February in Grade I Theory she also received first class honors with 92 per cent. Other talented pianists who wrote exams in Calgary were Lillian Aldred, Norma Borbridge, Neil McDonald and Helen Edgar, and first class honors were held by most of the students.

Mr. and Mrs. Alex Wakoluk are spending a week at Vancouver.

Legless Man's Identity Known

BEISEKER—The dead, legless man found Monday under the CPR station platform at Irricana has been tentatively identified as John McConnell of Edmonton, Calgary RCMP said Thursday.

Positive identification, however, will probably have to be made through pictures taken of the body, as the legless man has already been buried.

The body, equipped with two artificial legs, with a cane lying nearby, was found where the man had apparently crawled for rest and died in his sleep. He was estimated to be in his 60's, was bald-headed and wore a heavy mustache.

The tentative identification followed investigation of an Edmonton lead, and an Edmonton man told police he could identify the body of the man he believes is McConnell.

Beiseker News Briefs

Miss Rose Marie Wald has gone on a two weeks' vacation.

Mr. and Mrs. W. Mathews of La Guna Beach, California, are the guests of Mr. and Mrs. C. F. Lohrke. Mrs. Mathews is a sister of Mrs. Lohrke.

Visitors at the Jake Selzler home this week were Mr. and Mrs. Bob Tools and family of Stettler, and Mr. Philip Urlacher of Strome.

Chesterfield Avenue is buzzing with new cars — an Oldsmobile, a Hudson Jet and a Ford.

Maxie Ternes is leaving for the coast on the 17th to drive back his new car.

Mr. and Mrs. Jerry Schissel and Mr. and Mrs. Matt Oberhofer left on a trip to the States.

While breaking in a horse for his children, Mr. Les Kent from the Kent Ranch, suffered a fractured leg and is in the hospital in Calgary. All wish him a speedy recovery.

Mr. Lawrence Hagel is a patient in the Holy Cross Hospital, taking x-rays to determine the cause of his lengthy illness.

Mrs. Tennant has left for a holiday at Lethbridge and Vancouver.

Mrs. Heck of Rudyard, Mont., is spending the summer months with her daughters and sons-in-law. Mrs. and Mrs. Val Schmaltz, Mr. and Mrs. Alf Hagel and Mr. and Mrs. Schwartzberger.

Visitors at the Pete Schmaltz home last week were Dr. and Mrs. Dan Fisher and children of Shelby, Mont., and Mr. and Mrs. Doug Brown of Nisku, Alta.

Little Beth Sezler of Edmonton, daughter of Mr. and Mrs. Ronnie Sezler, is progressing very well after a stay in the hospital.

Mrs. Lillian Plantz left Thursday evening for her home in Cornwall, Ont., after an extended visit with her uncle and aunt, Mr. and Mrs. T. A. Lount.

Mr. and Mrs. John Deibert and Mr. and Mrs. Wendel Fritz of Allan, Sask., spent a few days with Mr. and Mrs. Leo Schmaltz, the Walds and the Otto Tetz's.

Mr. and Mrs. Clarence Wendlan and three boys of Rudyard, Mont., spent a week with the Val Schmaltz's, Alf Hagel's and Bill Schmarzenberger's.

Mr. and Mrs. Romaldus Bartsch of Esmond, N. Dakota, and Mrs. Barbara Abele of California, are spending a few weeks with the Hagel families.

Mr. and Mrs. John Brossart, Sr., and Mr. and Mrs. John Brossart Jr., of Allan, Sask., spent a few days with Mr. F. J. Hagel. Miss Eva Brossart of Calgary, also spent

Sunday with them.

Mr. and Mrs. Mike Ternes and son, Bob and Tony Hagel left on Thursday for Portland, Oregon and points west.

Betty Schmaltz of Frank is spending her holidays with the Bettins at Creston.

Miss Helen Dietrich of Calgary is visiting Miss Marie Schmaltz.

Crossfielders Attend Leaders' Course

CROSSFIELD — On July 8, a Leaders' Conference dealing with grains; beef, sewing, food grading, etc., was held at Olds. At this "Club Week" one member from each club received an efficiency scholarship which allows them a week's schooling in Olds. Miss Joyce Jensen of Crossfield was the winner from Crossfield.

During the course of the conference several of the Crossfield girls contributed to the program. Miss Barbara Bills, thrice winner, gave a thoughtful address on what club week can mean to an older member. Her talk was very much appreciated.

Evelyn Banta and Lavonne Becker, both of Crossfield, also performed a "sample" demonstration on the culture and kinds of shrubs, which exhibited the technique applied in this art.

A banquet was very much enjoyed, at which two garden club members were honored when they were made the recipients of five-year plaques, which designated the five years of service. Mrs. Frank Laut, Crossfield, accepted her presentation and also that made to Mrs. William Aldred, who was unable to attend. She suitably responded for herself and Mrs. Aldred.

Mr. Jim Baxter, Crossfield, represented the Beef Club.

Those who were privileged to attend thought their time was very well spent and their knowledge of leadership broadened considerably.

A dance was also enjoyed.

Interest High In Baseball

CROSSFIELD—More and more people are being interested in baseball, and are happy to find the dates and games posted on the bulletin board and various posters about town.

Sunday week the Crossfield team took a beating from Madden and then turned around and beat Airdrie. However in Wednesday's game Airdrie reversed the score and Crossfield was the loser, even though they almost evened up a big margin in the latter part of the game. Airdrie came in with a few more runs to cinch it.

Some of the local fans are wondering if a booster's club could be formed by getting competent speakers from Calgary to present their ideas.

To Give Courses In Water Safety

EDMONTON (BUP)—Courses in water safety will be given at five Alberta beaches in July and August.

Talks and movies will be given every Saturday afternoon from now on, and demonstrations with canoes, rafts and row boats will be given by W. D. Ross, Ken Hodger and Murray Smith, who are all members of Alberta's "Don't Drown Committee."

Tentative dates are: At Seba Beach, July 18-19; Alberta Beach, July 25-26; Sylvan Lake, August 8-9; Aspen Beach, August 15-16; and at Ma-Me-O Beach August 22-23.

Crossfield
News Briefs

Mr. and Mrs. Merv. Dawn are the proud parents of a son born in a Calgary hospital July 11.

Mr. and Mrs. Mervin Stafford are happy in the birth of a daughter July 9.

Mr. and Mrs. Jack Backs are receiving congratulations on the birth of another son in Holy Cross Hospital July 7.

A number of Crossfield old timers attended the funeral of Mrs. P. C. Cowling from Jacques Funeral Home on Wednesday, July 8. Mrs. Cowling will always be remembered in Crossfield for her tireless work in the school she established in her own country home, for children with a mental

handicap. These little children were boarded, roomed and taught by Mrs. Cowling until her health failed, and she was forced through it to give up her life's work.

Mrs. Ed Fraser is recuperating after a major operation in Holy Cross Hospital. All her friends are wishing her a speedy recovery.

Mrs. Banta Sr. had a little setback which prolonged her stay in hospital but it is hoped that she will soon be up and around en-

joying restored health.

Mrs. Margaret Wigle visited at the home of Mr. and Mrs. A. M. Wigle last week.

Mr. and Mrs. Dallin of Victoria, B.C. with their daughters June and Nancy and son Robert spent a short visit with Mrs. Bert Lilley. Also visiting from Vancouver at the Lilley home were Mr. and Mrs. Wallie Barnes and three children and Mr. and Mrs. Bill Gordon, Vancouver.

Miss Phyllis Clarke is the new voice you hear on the switch board. She is making her home with Mrs. Lilley.

News Oddities**Bullet Goes****Through Floor**

CUMBERLAND, Md.—Pfeiffer, 3-year-old son of a Cumberland policeman, was wounded when a shotgun blast tore through the floor of his apartment home from the apartment underneath. An intoxicated inmate of the downstairs apartment was responsible for the shooting.

Mother Saves 3

ST. LOUIS.—Her house ablaze and flames cutting off exits from the home, Mrs. Rosalie Smith, 41, tossed her three young children to a passer-by from a second floor window and then leaped to safety with a fourth child in her arms. She was taken to a hospital for treatment of first and second degree burns on her arm and back.

Helping Hands

BALTIMORE, Md.—Realizing the seriousness of the cause, three children—Nancy Kanow, 10, Julia Levy, 10, and her brother Steve, 8, raised \$4.02 as their contribution towards the Children's Hospital's fight against polio. The children danced and performed acrobatic acts for neighborhood fans attending their backyard circus.

A Big Job

REGINA, Sask.—The nurses attending the annual convention of the Saskatchewan Registered Nurses Association, were told by Grace Motta, acting president, that "the future of nursing depends on the ability of individual nurses to improve the quality of care given to patients—and to include in this care the education of the patient and families. That's a big order."

Jumps 6 Floors; Walks Away

PORLTAND, Ore.—Douglas Bentley Allen, 34, of nearby Beaverton, jumped out of the window of a doctor's sixth-floor office, landed on top of an automobile and was able to walk away. X-rays taken at a hospital showed not even a broken bone. The impact of his fall shattered the car's rear window and caved in the auto's trunk.

Meet With Bang

YAKIMA, Wash.—Leslie Goodykoontz was looking for his nephew, Joe Goodykoontz, whom he had not seen in 17 years. Intent on finding Joe's house, Leslie ignored the traffic. An oncoming driver slammed on his brakes to avert a smashup with him and skidded into a utility pole. The irate driver was Joe, the nephew. Uncle Leslie got a negligent driving ticket anyway.

725-Lb. Man Wed

BUCYRUS, Ohio.—Charles (Tiny) Kinsey, 32-year-old service station operator who weighs 725 pounds, recently married Miss Beverly J. Hankinson, 24, who weighs a mere 162 pounds.

Good Record

PHOENIX, Ariz.—For the third consecutive year, a graduate from the North Phoenix High School has won a \$4,000 science scholarship to Stanford University. This year it was Karen M. Spangler, 17, who was the winner. Last year Steve Thomas won the prize and Alice McKinney won it in 1951.

EDITORIALS

The Reluctant German YANKEE

Whatever the reason, the people of West Germany, though fearing Soviet Russia, are hesitant about doing anything to assist in the defense of Europe against a possible onslaught of Red forces from behind the Iron Curtain.

Why should there be this change in German attitude? Has there been a real and radical change of heart—does the German now feel that, after all, war is wrong and regardless of possible outcome he'll never go to war anymore? Or is it just that he's had a too-recent belly-full of bloodshed and hasn't had time to digest his gorings and hence hasn't yet developed a taste for more militarism?

One thing is certain. The West will be hard to defend against a Russian invasion without the active support of West Germany. And that will be next to impossible unless the German people plunge into the business of building a defense force, right away, that will help to discourage Russia from contemplating war in Europe.

Alberta's New Decision

The Alberta Government recently turned down an application by the Federation of Agriculture to have marketing boards set up in the province. Their official statement is as follows:

"The legislature majority feels that every farmer should have the right to market his own production in any manner he chooses and that no farmer should be compelled to market his production in a manner that might be agreeable to the majority of his fellow farmers but not acceptable to him."

For legislature arbitrarily to interfere with a farmer's right to market his own production as he sees fit, even if the particular method of marketing adopted is acceptable to a majority, seems to us to be incompatible with the established and recognized position that no one has a right to tell a man how and where he can dispose of his own property."

In view of this most important statement by the Alberta Government it now remains to be seen how far the Alberta Government will re-examine their present support of compulsory wheat and coarse grains marketing which most certainly does compel thousands of farmers to market their wheat, oats and barley in a manner that might be agreeable to the majority but which is not acceptable to them.

Hollywood Coming To

Alberta

Due largely to the impact of Television the Hollywood Picture business has been in the doldrums during the past year or two. But the increasing interest in 3 Dimension is giving new hope.

Also because of the grandeur of our Canadian mountain scenery, with its vast vistas and of the big industrial developments in Canada, which lends itself so happily to the making of this type of films, as well as the chance of bypassing some of the income tax handicap these big movie producers are turning to Canada for the scenes of their pictures.

All across Canada from Newfoundland to Kilmat, B.C., using the Atomic Power Development, Iron Ore, Uranium, Calgary Stampede, the Mounted Police and their Musical Ride, the Banff and Jasper Park Highway, exciting shorts and some full length pictures of adventure struggle and achievement are to be filmed. Big producers and noted actors like James Stewart and Alan Ladd will be working in Alberta in the next few months.

The film industry has been hard-pressed to meet the changing conditions of recent years. With more people finding diversion in Television and motoring the movie magnates have had to struggle to keep out of the red. Maybe more refreshing outdoor Canadian scenes will be good for business.

Bible Today

For God hath not given us the spirit of fear; but of power, and of love, and of a sound mind.

—2 Timothy, 1: 7

Side-Shows In Politics

(Calgary Albertan)

During the 1949 federal election campaign Mr. George Drew, the Conservative leader, tried to establish that there was something of a scandal in the government's dealings with an aircraft factory. Because nothing had been heard of it prior to the campaign, the voters assumed that Mr. Drew had manufactured the case for political purposes, and their respect for him was not enhanced.

The other day Mr. Drew alleged there were communists in responsible positions in the employment of the federal government. Apparently he is trying to emulate the successful tactics of Senator McCarthy of the United States, and more will be heard along this line.

Prime Minister St. Laurent has denied any knowledge of such a situation and challenges Mr. Drew to bring out his proof.

The Conservative leader should appreciate that most Canadians have a somewhat different political sense than what Senator McCarthy appeals to.

The attitude of most Canadians, we are very sure, is that if Mr. Drew has evidence of any such employment of communists, it was his duty to disclose it to Parliament, which was in session not many weeks ago. That's what Parliament is for. Mr. Drew is leader of the Opposition, and he's paid by the Canadian taxpayers to oppose the government on the floor of Parliament, to make his accusations there and produce his evidence there. If he possesses information important enough to be made an election issue, he was negligent in his official duty in hiding it from Parliament.

Whether there are any communists in the government service we don't know. Mr. Drew could be right. But we do know that his timing and his method of raising the issue almost force the average voter to conclude that this, too, is nothing but a political stunt and that its author cannot be taken seriously.

Can Canada afford a prime minister who is not to be taken seriously?

No Fighting Issue

The current Federal election campaign is one wherein the opposition forces have no real plan or platform to offer as a substitute for the Liberal administration of the past 18 years. Political observers in Canada and in foreign countries agree that there is no better-governed land than Canada.

Mr. Drew is like the proverbial drowning man clutching at straws. Four years ago he carried on a lusty campaign against the type of engine being used in TCA planes. This time he has a grandiose scheme to increase government expenditures by one billion or more a year and still reduce taxes by half a billion.

Clearly, such ridiculous propositions show that there is no real issue being fought in this campaign.

Crop Scares

We are now in the period of crop scares. We are hearing the following predictions: We've had too much rain, so much land is flooded. Farmers, therefore, have abandoned a lot of acreage. Grasshoppers will take a lot of the crop. Wireworms and cutworms are damaging the crop. Hail will be worse than usual. The crop is late, so the frost will surely get it. The 15-D rust will damage what is left. Even if we harvest a good crop we shall never be able to sell it. And so it goes, with these direful predictions during the course of almost every crop in the making. Some years, of course, the crop is actually poor, and in other years in spite of all these hazards a good crop is produced. Somehow or another, however, in spite of it all a fair crop usually comes through, indicating the remarkable power of our grain varieties to survive in spite of all the hazards of weather, insects and plant disease. Had it not been for these remarkable powers of survival our domesticated plants, so agriculture, would long ago have disappeared from the earth.

One good forecast can usually safely be made: the crop will never be quite as good as some people think, and will never be as bad as some predict.

Voice of the People

HORSE POWER AND OLD HARNESS

Here's a problem I have not seen mentioned in your paper to date.

In rummaging around the old barn I find that harness and parts from the days of horse power farming still remain. This is a thing common all over the Prairies where mechanization has taken place. Tons and tons of harness, parts and collars are going to waste while in places where horses are still used high prices are being paid for such articles. I just wonder if it is not possible to bridge this gap and connect the ones whose old harness is going to waste with those who may need collars, traces, harness and straps to repair and replace their stocks. If this could be done I am sure substantial savings could be effected and a lot of waste stopped. Would this be worth while? Seemingly Endless Prosperity may not last forever you know. What do you think?

Arne Notland.

Morin, Alberta.

HANG 'EM, HE SAYS

Stop your silly argument that the death penalty should be abolished. Every murderer and every traitor should be hanged, regardless. At long last the Rosenberg rats have been exterminated. Congratulations to President Eisenhower for not showing mercy to these traitors.

APPEASEMENT DOUBT

The Communist leaders seem to be getting just what they want in Korea — another chance to build themselves up. I wonder: will appeasement in Korea really save lives, or will it lead to an even greater slaughter of our boys?

WONDERING.

THE PRICE OF WHEAT

Many farmers are greatly confused about the future price of wheat under the International Wheat Agreement. "What's this talk about lower future prices to farmers" they say "when there is a definite price of \$2.05 set under the International Wheat Agreement."

The truth is that it is not at all certain that farmers will receive the \$2.05, for in spite of the present belief of many the \$2.05 is not a definite price, but is only the maximum above which price cannot go. The only price assured under the agreement to our farmers (and even this is not a positive assurance) is the minimum of \$1.55. Between the maximum of \$2.05 and the minimum of \$1.55 the price farmers will receive (basis 1 Nor. Fort William) may fluctuate, and will be in accordance with the open market price of wheat, which open market price is usually represented by the Class II price set daily by the Canadian Wheat Board.

What the actual price to farmers will be after August 1st next is quite beyond the ability of anyone to forecast or to guarantee. Winnipeg.

H. G. L. STRANGE.

The Right Combination

for miles of trouble-free motoring

\$1 Favorite RECIPE

BUTTER BUDS

1 cup butter
2 eggs
2 tsp. vanilla
1 cup brown sugar
1/2 tsp. salt
4 tsp. baking powder
2 1/2 cups flour

Cream butter and add sugar. Add well-beaten eggs and vanilla. Combine sifted flour, salt and baking powder and sift gradually into the first ingredient mixture. Work well and cut with cookie cutter. Bake in moderate oven for about 15 minutes. These are really good.

One dollar check goes to Miss Joyce Montgomery of Onoway for this Favorite Recipe.

LETTER TO LOUISA

Should A Hard Working, Ambitious Girl Marry A Jealous, Lazy Man?

Dear Louisa:

I am a 27-year-old farm girl. A few months ago I became engaged to a boy a few years older than me, whom I thought I loved. Now, as the time draws nearer to the date we had set for marriage, I become less certain whether I made a right choice or not.

I am ambitious type. I have been doing housework and outside chores such as driving tractor, etc. I have earned some money, which will come very handy in helping to make a home some day. My only mistake is that I have never worked anywhere but home, since having nearly completed my high school education.

My fiance is also a farm boy, but he isn't ambitious. Just lately, I've found out that he isn't a good worker and always has to be told what to do and when to do things. If I ever look at another boy, he may be jealous of me. I am fairly quiet myself, but I don't need anyone to order me around.

Now everything is so complicated I just don't know what to do.

Louisa, please give me some advice. I realize I am not so young. Should I marry this boy or shall I still look around?

WORRIED

Dear Worried:

Not all successful marriages are made by people who are identical in their ambitions and personality make-up. Many are complementary to each other. That is, the ambitious man or woman, used to going ahead and doing things on his or her own, will get along quite well with a docile mate who has to be prodded into doing everything.

At your age, you should consider if you have any real prospect of meeting up with someone about your own age who more nearly fits your ideal of a good husband.

Then you should take a pencil and a piece of paper and write down on one side your fiance's

Canadian Highway Finished By 1960

Deputy minister of resources and development, Maj-Gen Hugh A. Young, who visited Calgary this week, said it is expected that the coast-to-coast Trans-Canada highway will be completed by 1960.

The highway through the prairie provinces, he said, should be ready for through traffic by 1956. The federal government will be building part of the road through the Banff National Park and it is planned to build the road from the park gates to Lake Louise in such a way that it can later be widened into a four-lane highway.

Maj-Gen. Young, who is also commissioner for the Northwest Territories and who was former general staff officer, grade two, at MD 18 in Calgary at the beginning of the last year, said that the greatest difficulties in construction were occurring in the mountainous terrain of British Columbia, in Ontario, and also in the Maritimes.

Mine Plans To Sua Union

TIMMINS, Ont. (BUP) — Broulan Reef Gold Mines has told the powerful United Steelworkers of America it would sue it for damages, including loss of profits, for shutting down its rich Porcupine goldfields with a wildcat strike.

Walter F. Brown, mine manager, said in a letter he would file the civil suit against the union, its officers and any members taking a direct part in the "illegal stoppage" and would ask to be reimbursed for damages including maintenance and lost profit.

Union officials said there was no precedent in the courts for a civil damage award against a union. However, an arbitration board last year ordered the United Electrical Workers to pay \$9,208 damages to Canadian General Electrical for an illegal strike. When the union refused to pay, the company collected it by withholding checkoff dues paid by union members.

More than 350 cold miners struck over a wage dispute at Preston East Dome mines Monday, bringing to eight the number of mining properties shut.

The walkout swelled the number of striking miners in the Porcupine mining area here to about 725. Workers at Broulan Reef and Hallnor Gold Mines quit Saturday. Five properties operated by Broulan were closed and picketed.

Canadian National Using Diesels

EDMONTON — Canadian National Railways announced here Tuesday that it now has diesel locomotives running west from Edmonton for the first time.

\$1 BRIGHT SAYINGS

The Editor will pay \$1.00 for each child's saying printed. To qualify, item must be true, personal remarks of a child known to the writer. Address: Bright Sayings, P.O. Box 4430, South Edmonton.

After filling up at the Ladies' Aid tea in Amisk, Glen, our five-year-old son, finished up with an ice cream cone. On arriving at Hughenden five minutes later he remarked: "Him, funny, I just got hungry at the right time."

MRS. SVEN NELSON.
Hughenden.

Police Bullets Halt Suspects

EDMONTON (BUP) — Two men arrested shortly after a break-in early Wednesday were remanded until July 23 when they appeared in police court on charges of breaking and entering.

The pair, Joseph Dencer and Nick Gordichuk, were arrested by two prowler car constables after a warning shot had been fired at them.

Police said the pair had broken into the Midwest Paper Company. Gordichuk was captured by constable Robert Robertson and Dencer was found in his parked car by Constable John Tilson.

The office, police said, had been damaged to the extent of several hundred dollars. J. H. Mills, manager, said although the amount of stolen cash is not definitely known, two cheques, totalling about \$275, are missing.

HERE'S HEALTH

Treating yourself for illness may lay you to rest some future day. The pills you pick might prove a mistake. And one is all one needs to make.

Dept. of National Health and Welfare

Health Unit Notes

EYE STRAIN

Our eyes have developed to see best outdoors in good daylight. The diffuse sunlight then about us does not injure the eyes and close work can be done without eye strain. However, modern conditions require us to work often in poor daylight and at least part of every day under artificial light. Since the light under these conditions is often unsatisfactory it is not surprising that so many persons complain of eye strain. The commonest cause of this eye strain, as you may suspect, is prolonged use of the eyes for close work under poor light. Under such conditions it is not the nerves of the eyes which play out but the muscles which move the eyes and change the focus of the lens and the size of the pupil. All these muscles become fatigued while trying to keep the eyes adjusted for good vision under poor lighting conditions.

Artificial light, if properly shaded to prevent glare will not harm the eyes. Fluorescent light is the best type, but adequate light can be obtained from ordinary frosted electric light bulbs or from kerosene lamps provided the light fixtures are numerous enough and properly situated. The amount of light actually reflected on the work should equal at least 25 candle power. Some tasks may require up to 100 candle power. If a light meter is not available, the necessary amount of light can be judged by the ability to see the work comfortably without apparent strain. Even with light of 25 to 50 candle power on the book or work, eye strain will develop if the background is too dark. The marked contrast between the bright light on the work and the dark background is annoying and fatiguing to the eye muscles. This is partly due to the constant changes made necessary in the size of the pupil to compensate for the greatly varying amounts of light which enter the eyes as the gaze alternates between the light on the work and the much darker surroundings. To avoid such unhappy contrasts the background should be illuminated uniformly with non-glare light of less intensity than that on the work, but bright enough to prevent sharp contrasts. This background illumination can be obtained by combining sufficient natural or artificial light sources with suitable reflecting surfaces on ceilings, walls, furniture and floors.

This can be obtained by having the ceilings dull white or some off-shade of white; the walls light shades of ivory, buff, blue or green. Windows are best situated so that the main light enters from one side, other windows should be screened to prevent confusing cross lighting. When natural light is used extensively there will be areas far from the windows where

Grain Marketing Increase Is Shown For Alberta

EDMONTON — A summary of general statistics issued by the department of industries and labor last week showed a slight increase in grain marketing for the 1952-53 crop year.

Alberta farmers marketed 188,226,000 bushels of grain during the first 10 months of the crop year which ends July 31, the report said. Marketing during the corresponding period of the 1951-52 crop year totalled 181,897,000 bushels.

Wheat marketing for the 10 months dropped from 110,992,000 to 107,790,000 bushels, but marketings of other grains—oats, barley, rye and flaxseed—increased from 70,505,000 to 80,536,000 bushels.

Livestock marketings during the first four months of 1953 were considerably higher than during the corresponding period in 1952 due to the lifting of international and interprovincial embargoes which followed eradication of foot-and-mouth disease.

Crude-oil production during the four month period increased 36 per cent over the corresponding period of 1952 and the value of crude sold increased 29 per cent. Natural gas production jumped 13 per cent.

Coal production continued to drop in the early part of 1953. Production was down 25.5 per cent and the value of the coal sold dropped 29 per cent in comparison with 1952.

Gross sales of new motor vehicles increased from \$1,366 to \$1,812 and the value of motor vehicles sold increased 45 per cent.

A total of 8,417 building permits were issued in Alberta during the first four months this year with a total value of \$32,387,220, compared with work valued at \$17,816,068 during the first four months of 1952.

Traffic Deaths Increase 49 Per Cent

EDMONTON — A 25 per cent increase in traffic accidents and a jump of 49 per cent in the death rate for the first six months of 1953 was reported Wednesday by the Alberta Safety Council.

By the end of June, 82 persons had been killed in 7,857 accidents. Noting that 18 fatalities occurred on country roads in June while there were none in the cities, the council issued warning precautions to travellers taking rural routes.

Canada Has World's Best Money

EDMONTON—"Canada has the world's best money," said the Hon. George Prudham, federal minister of mines, in a public meeting recently.

Mr. Prudham, seeking re-election in the Edmonton West riding, told the meeting that a good government has helped to build up international confidence in Canada and has raised the Canadian dollar to its premier position as the world's "best money."

The light will have to be supplemented by suitable arrangement of artificial light fixtures. Such good lighting arrangements are becoming more common in newer buildings and homes. In older buildings insufficient thought was given to lighting problems and it was not realized that eye strain comes most commonly from poor light. Even in these older buildings sensible lighting can be obtained by improving existing arrangements. It is false economy to try to save on daylight, electricity or kerosene.

TEETH

A word to teenagers about teeth. Tooth decay is often most active during the teens; the damage can be lessened by regular brushing morning and night; and don't eat too many sugary things! To be on the safe side you should have regular dental checkups.

Indian Chief Applies Her "Warpaint"

LIPSTICK IS THE ONLY "warpaint" worn by Mrs. Arletta Lister, first woman Indian chief in Canada. Shown here in her full ceremonial headdress, the Chippewa Chief lives on the Indian reservation at Muncey, Ont., where she is assisted in handling the affairs of her people by a council composed of both men and women.

Alberta Farmer Develops New Wheat Strain; 92-day Growth

EDMONTON, Alta. — (BUP) — Canada's agricultural frontier soon may be pushed farther north because of the research done by an Alberta farmer.

165 Alberta Scouts Going To Ottawa

An estimated 4,000 Boy Scouts, 165 of them from Alberta, will take part in the Canadian Jamboree at Connaught Ranges, near Ottawa, July 18 to 26.

Provincial leader F. S. Fry, Calgary, with executive officer Paul Krueger, of Edmonton, will head the five Alberta troops.

Father Lessard of McLennan is leader of the northern Alberta troops; M. MacIntyre of Drumheller, the Central Alberta; William Jewkes the Calgary; Charlie Crowhurst the southern Alberta; and Dr. D. E. Robinson, the Edmonton troop.

The Alberta troops will meet in Calgary July 15 for a 24-hour pre-camp session when they will practise the burning of charcoal to be used at the jamboree, as well as the erection of the 24-foot signalling tower which will represent Alberta in the provincial displays.

The Alberta unit will leave Calgary by special train July 16 and will return July 29. Highlights of the jamboree include archery demonstrations, master-at-arm tournament, RCAF and army displays of planes and jeeps, and a tour of Ottawa city.

Girls Seeks Father Working in Alberta

A daughter of American-born Hubert Byron Brown, whom she has not seen since she was a small child, has asked the Salvation Army for assistance in locating her father.

The young lady said she has reason to believe her father may be working on an Alberta farm. Mr. Brown is described as follows:

5' 8" tall; blue eyes, fair complexion.

Anyone knowing the whereabouts of Mr. Brown is asked to contact the Salvation Army Social Service Centre, 515 1st St. E., Calgary, during office hours.

Hayes Re-elected Livestock Co-op Head

EDMONTON — C. P. Hayes of Strome was re-elected president of the Alberta Livestock Co-operative at a board meeting following the two-day annual meeting.

Other officers elected were: first vice-president, J. T. Holland, Fleet, and second vice-president, B. H. Carlyle, Blackfalds.

The co-operative passed a resolution asking the provincial government to set up legislation making way for the establishment of marketing boards.

Tractor Claims Another Victim

WAINWRIGHT, Alta. (BUP) — A recent immigrant from Germany, Helmar Ederik, was killed near Wainwright when the tractor which he was driving overturned in a ditch.

Ederik, an employee of Ralph King of Fabyan, was trapped under the tractor. The accident occurred a few miles north of Fabyan, and was seen by a neighbor, J. Taylor, who notified RCMP.

Did Work All Right

"That new saw I bought is worthless," he stormed, "why, it wouldn't cut butter."

His small son, Tommy, looked up in surprise. "Oh yes, it would dad," he exclaimed earnestly. "Why, Ted and I sawed a whole brick in two with it this morning in no time."

Sponsored by the following companies: Federal, Alberta Pacific, Pioneer, Canadian Consolidated, Peterson, McCabe, Parrish & Heimbecker, Inter-Ocean, Independent, Elliston Milling, Canada West and Quaker Oats.

SUMMER FIELD DAYS AND FAIRS

The season of agricultural Field Days and Fairs is with us again. These summer events provide an opportunity for farmers to secure the latest and best information available on new farm practices, new crop varieties, and new methods of controlling weeds, plant diseases and insect pests.

Field Days. During the next few months a number of Field Days on special farm topics will be held at the various Experimental Farms and Illustration Stations throughout the Prairie Provinces. Short Courses and Field Days will also be conducted at the provincial Schools of Agriculture. In addition, the provincial Departments of Agriculture will hold numerous Field Days and Demonstrations.

The common aim of all these events is through field trips and demonstrations, to promote new, sound farm practices leading toward the solution of major crop production problems. Tremendous developments and advances in agriculture are now taking place. Consequently, farmers should make every effort, sometime during the summer months, to visit their nearest Experimental Farm, Illustration Station, or provincial Agricultural Field Day.

Country Fairs. Then there is the Agricultural Fair. A day at the Fair can, of course, be devoted entirely to entertainment, or it can be made extremely valuable in an educational way. True, the Grandstand, the side shows, and other amusements are a necessary part of the modern country Fair, but they are not, and should not be considered, as important as the educational features of the Fair. Be sure and visit the various displays and exhibits at your local Fair. You will find them not only attractive and interesting, but instructive as well. And don't forget, your local Fair needs and deserves your fullest support.

Quick Canadian Quiz No. 122

- What city is located at the junction of the Red and Assiniboine Rivers?
- How much will Canadians put up this year for new construction, machinery and equipment, repair of existing plant and structures?
- Do more Canadians earn their living in the factories or on the farms?
- Which is the fourth largest province?
- In what cities in eastern Canada are manufacturing wages highest?

ANSWERS: 5. Wages are highest in Hamilton and Windsor, Ont. 3. In the factories; almost half as many again as are employed in agriculture. 1. Winnipeg. Man. 4. Alberta (after Que., Ont., B.C.). 2. This year Canadians will invest \$7,446,000,000.

(Material supplied by the editors of Quick-Canadian Facts, the handbook of facts about Canada.)

Appropriate
Visitor: "And what's the building over there?"

A Sophomore: "Oh, that's the greenhouse."

Visitor: "I didn't know that the freshmen had a dormitory all to themselves."

A Mistake
"So Miss Golrock broke off her engagement with that magazine editor, did she?"

"Yes, she wrote him some love letters and he returned them with a rejection slip stating that while he was always pleased to see such things and they undoubtedly possessed merit, he was greatly overstocked with other contributions of a similar nature."

A Happy Day
Returning home at night from the office, the father asked his children about their behavior that day.

"Oh, we've been good," said little Nancy. "I washed the dishes."

"And I wiped them," added Peter.

"And what about you, Dicky?" the father asked, turning to the smallest member of the family.

"I picked up the pieces," he replied cheerfully.

They Run High
She: "What's harder than a diamond?"

He (absently): "Paying for it."

A Resemblance
A company of cadets was lined up on the field of inspection, and as the officer strode down the line, he stopped before a young man and said:

"You remind me of General Grant."

"Really, sir," said the cadet, eagerly.

"Yes," said the officer, "he didn't shave, either."

Knew Her English

During the last war an American doughboy on leave picked up a cute little mademoiselle and took her to a Parisian cafe for dinner.

During the first course he consulted his French dictionary, and with a fine Brooklyn accent breathed, "Je t'adore."

The little lady fired back, "Shut the door yourself—you laces Yankee."

Terrible!

When the flood was over and Noah had freed all the animals, he returned to the ark to make sure all had left. He found two snakes in the corner, weeping.

"What's the matter?" Noah asked.

"You told us to go forth and multiply upon the earth, and we are both adders."

Quickly Jailed After Robbery

EDMONTON (BUP) — City police arrested Roger Gauthier, no fixed abode, for the theft of more than \$2,150 from a recently arrived immigrant.

Gauthier was living in the same rooming house as the immigrant, Adolph Linge. Tuesday Gauthier came to the house in a taxi and asked to go into Linge's room to pick up some belongings. When Linge came home he discovered that a metal box containing \$150 cash and over \$2,000 worth of antiques, was missing.

Detectives, acting on information from the taxi driver, found Gauthier and another man in a downtown hotel room, as well as the metal box and some of its contents.

Gauthier pleaded guilty to the theft charge in police court, and was remanded eight days for sentence.

HOLIDAY NEWS... IN CANADA

PICTURES!

Summer is the great Canadian Holiday season. And from one end of Canada to another hundreds of vacation spots beckon to the holiday-seeker. Here we take you on a picture trip from the Rocky Mountains on the west to Cape Breton on the east.

Our neighboring province — Saskatchewan, though known as a land of flat prairie has many beauty spots. Here is a sailing canoe on peaceful Cream Lake, Prince Albert National Park.

The next province, eastward, to Saskatchewan is Manitoba and there the favorite vacation spot is Riding Mountain National Park. Here we see the quiet pastoral beauty of the north shore of Clear Lake in this famous park, sixty miles north of Brandon.

Rustic construction suiting the surroundings mark the Museum Building at Manitoba Riding Mountain National Park.

Three thousand miles from Alberta is Cape Breton, an important island off the coast of Nova Scotia. Here we see one of the thousands of tourists who yearly visit on Cape Breton, at the entrance to lovely Cape Breton Highlands National Park.

Back home in Alberta we have a popular spot for family picnics, swimming, boating and sports of all kinds. Visitors love to see and take pictures of the buffalo who make their year-round home at this resort. Once monarchs of the open range, bison graze quietly within the confines of Elk Island National Park, only 30 miles east of Edmonton.

In the Rocky Mountains of Alberta and British Columbia visitors like to go out on day-long and even week-long trail rides through majestic splendor. Here trail-riders stop to view a pretty lake set like a diamond between the mountains.

News From Other Alberta Towns

Large Crowd Attend Field Day Program Proves Major Success

RICH VALLEY—Approximately one hundred interested farmers and farm women took part in the Rich Valley Field Day which was organized by the Department of Agriculture and arranged by District Agriculturist Mr. Peacock of Sangudo. The Field Day was held on the Wengrenuk farm.

Conducting the proceedings were Charles Cheshire, Extension Agriculture Engineer, and Vern Osbaldeston, the farm mechanics instructor of the Fairview School of Agriculture. Everett McCrimmon, radio commentator of the farm program "Calf of the Land", also attended. Mr. McCrimmon recorded the activities for his program.

The purpose of the Field Day was not to set up machinery, but rather illustrate the work done by the machines and compare their operations, with the foremost thought in mind being trash cover. Both engineers stressed the great importance of "trash" cover.

First, trash prevents erosion from wind—a 4-inch stubble will reduce a 60-mile per hour wind to four miles an hour at ground level. Trash cover acts as a shade, too, and helps prevent excessive evaporation. Straw from a 50-bushel crop contains three to four dollars worth of fertilizing value. Trash cover also acts as a dam to prevent rapid water run off. The straw serves another purpose, for the straws serve as wicks to take water into the soil. All this is possible by the use of proper implements, adjusted to the work.

The first operation was a ploughed furrow of six inches depth, leaving no trash cover. Then a tiller was adjusted to a depth of four inches, and left a fair amount of stubble on top.

A tool bar cultivator and a stiff-tooth cultivator set for three inches did a very commendable job of cultivating while leaving trash cover.

The second cross operation was done by a cable weeder and a disc harrow. This operation gives 25 different tillage combinations. Mr. Cheshire commented on the day's operations, pointing out that the cultivators moved only half the soil that ploughs do and the cultivators do an excellent job of leaving stubble on top.

Field Days such as this are a tremendous help to farmers, for they bring him up to date on modern improved farming methods and provide the opportunity for him to obtain expert advice, and to talk his problems over with his neighbors, and discuss the best type of machinery for his farm. They serve too to point up the saying, "One seeing is worth ten readings."

Local Woman Receives Surprise; Winner of G. E. Fridgidaire

SMOKY RIVER—About two months ago Mrs. George E. Servant, heard her name announced over an early morning French Radio program, her letter and Robin Hood coupon had been drawn from the mail bag away out at Montreal. This was a very delightful surprise.

Mrs. Servant then received a telegram asking her the question, "When was the statue of Westminster drawn up?" She at once wired back her reply—1931.

The lucky winner was then informed that she was the winner and had the choice of a Frigidaire, or an Electric Stove. Mrs. Servant chose the Frigidaire, and about three weeks ago the lovely Frigidaire was brought home to her.

It is with great pride Mrs. Servant shows this Frigidaire to her many friends.

Mr. and Mrs. Geo. E. Servant of the Donnelly district are pioneers of the north, and congratulations are extended to them from all their many friends.

Officials Attend Civil Defence Graduation Exercises

TOMAHAWK—After weeks of lectures and some practical training, the Civil Defence class held their graduation ceremony on the evening of the 3rd. The honored guests of the evening were Mrs. C. R. Woods, the district MLA; Mr. E. Tyler, of the Alberta Civil Defence headquarters; Tom Sherman, of the Civil Defence Rescue School in Edmonton; and Mr. R. Zander, the local councillor.

Each gave a talk on the various aspects of Civil Defence and the need of it in the rural community. Mr. Val Kotscherofsky, the district co-ordinator, acted as chairman during the proceedings. Mr. Zander presented one of the class with the certificate and Civil Defence badge. Mr. Bruce Earle, the local Co-op Store manager, was appointed Civil Defence Director for Tomahawk.

The class consists of Bruce Earle, Alfred Jouan, Gaston Jouan, Dan Schadeck, Herman Steinke, Mrs. A. Jouan, Mrs. J. Reynolds, Mrs. L. Sauve, Vernie Woodruff, Mrs. V. Woodruff, Mrs. H. Steinke, Mr. J. Overbo, J. B. Smith, and Paul Tatarewicz.

The Rescue Training school is to be held in Edmonton, opening day being August 17. The course will last two weeks and will consist of detailed work in rescue. Living expenses during this course will be provided by the government.

Thanks are due to Val Kotscherofsky for his interest in organizing the local group. With this initial step further measures can be taken to form a local fire brigade, a home nursing class or a first aid class.

Helicopters Visit Barrhead

BARRHEAD—Two helicopters which are making contour maps of Alberta have been in this district for several days, and formed quite an attraction to the residents. The helicopters were left on the sports grounds for the night and many residents, particularly little boys, have flocked to examine them.

Government Rejects All Tenders For Oil Sands Plant

McMURRAY—It was announced in Edmonton by Premier Manning last week that all tenders for the purchase of the Alberta government's bituminous sands, extraction plant, about 300 miles northeast of Edmonton, and the lease of 5,874 acres in the oilands region, have been rejected.

Mr. Manning did not state the number of tenders received; nor did he say what steps the government will take now.

Both the sale of the plant and the lease of the oil sands were offered in a package deal. Offers to obtain them separately were not considered.

The oil reserves of the bituminous sands, reputed to be the world's largest untapped oil source, are estimated at 250,000,000,000 barrels.

Informed sources said later that the provincial government now could sell the plant piecemeal, or through a private deal.

Tractor Overturns; Cosmo Man Unhurt

COSMO—John Nemeth Jr. had a very narrow escape from injury last Friday when his tractor rolled over while he was skidding trees off his clearing. It is believed the tractor wheel hit a hole which could not be seen for leaves, etc., and being on a slope it was sufficient to let the tractor roll.

Fortunately, John was thrown clear and with the help of some of his neighbors and their tractors they were able to raise the overturned tractor.

This is a good illustration of how quickly and easily accidents can happen, as John is very careful with his machinery and tractor at all times; but these unfortunate things can be very unexpected and sometimes fatal.

OATWAY HOUSE SYMBOL OF SERVICE AND GOODWILL

By L. W. NEWCOMBE

STONY PLAIN—The Oatway House stands today, as it has stood for 30 years, in quiet simplicity and calm assurance of peace and refuge.

Through its doors have passed thousands in need of the healing skill of the friendly confident doctor and his hospitable faithful companion, for it has stood "by the side of the road and been a friend to man." The tiny spruce Dr. and Mrs. Oatway planted before its doors in 1920, now towers high over the driveway and porch, giving the place a feeling of seclusion and rest which appears to calm the troubled mind and soothe the restless spirit.

Most structures in this western country are modern and well enough in their place, and for the purpose they serve, but not many have an individuality, or spirit of their own. Indeed the spirit of man is everywhere, more restless, it seems to me, than it used to be, perhaps nature itself is chafing against the humans who speed across its surface with such heedless haste and with so little time or thought either for the purpose of life or for meditation.

The good Doctor and Mrs. Oatway lived their lives and served well their fellows, and it seems to me the old house they occupied still holds some of that spirit they placed within it.

It has now become public property and belongs to the people of the Municipality. It has been modernized and re-decorated, and in time the grounds will be landscaped, we hope, to bring it into harmony with the mission to which it is dedicated.

THIEVES HAVE BUSY NIGHT— BREAK INTO TWO HOMES

MORINVILLE—Two trucks were reported stolen and two homes broken into and entered during the night of Sunday, July 12 at Morinville.

A. R. Martel had his panel delivery truck stolen but it was recovered intact the next day in the northern outskirts of the town.

Chevalier Brothers reported to Constable Meunier that their Dodge half-ton truck was stolen from their yard the same evening. It has not been recovered to date.

Thieves broke into Gustave Ricard's residence by forcing a window open on the west side of the house. Nothing was reported stolen except for a blanket which was hanging on the clothesline. The blanket was recovered at the home of Mr. and Mrs. Edgar Chevalier which was also broken into and entered.

Thieves gained entry there by removing a screen and forcing open a window on the east side. Miss Lorraine Chevalier, 12-year-old daughter of Mr. and Mrs. Chevalier, was sleeping on the chesterfield at the time and the lights were on. Thirty dollars in travellers' cheques and eight dollars in cash were stolen from a purse belonging to Mr. and Mrs. Chevalier's guest, Mrs. Bill William.

Constable Meunier notified the RCMP who are investigating.

Car Damaged In Accident

ROCHESTER—An accident west of Rochester occurred recently when Mr. J. Lestrowich of Jarvie, en route to the picnic at Rochester, had stopped his truck quite suddenly on the road. Mr. A. Anderson, following behind, ran into the rear of the truck.

The truck driven by Mr. A. Anderson was extensively damaged in the front. Mr. J. Lestrowich's truck sustained very little damage.

Combined Congregations Mark Church Anniversary

GLENDON—The 36th anniversary of the Ukrainian Orthodox church was held in Glendon on July 5 with a special service in the church and dinner at the National Hall.

After dinner a conference was held with delegates representing churches from Elk Point, Sandy Rapids, Lassard, Gifford, Therien and Flat Lake. Delegates were Messrs. Chuhay, Tkatchuk, Wizniuk, Stasiuk,沃伊托维奇, Yarosh, Filipchuk and Rev. Magas.

The chairman of the meeting was Mike Kostyshyn.

To Write Article

SANGUDO—Mrs. Kay Brook, Sangudo's up and coming author, has been authorized by the "Canadian Homes and Gardens" to do an article on the diamond willow furniture that was made by John Liss. Some of this furniture was on exhibition in the Old Timers' booth at the farmers' picnic at Mayerthorpe.

This article will be illustrated by photos taken by Johnny Blasko, of Blasko Studios, Mayerthorpe, who took the photos that were used in a recent issue of the Country Guide. In the article "Paddle Valley Pioneer," which was written by Mrs. Brook.

Child Killed By Dad's Car

LAC LA BICHE, Alta. (BUP)—RCMP reported that a two-year-old boy, David Allan Coulter, was killed when his father's car ran over him at Imperial Mills, 40 miles northwest of Lac la Biche.

The tot was rushed to hospital in Lac la Biche but was pronounced dead on arrival by Dr. A. Brinsmeade, coroner.

The boy, son of Mr. and Mrs. Richard Coulter, received multiple chest and neck injuries. RCMP said he was hanging on to the door of his father's car, and as the vehicle was backed up, he fell under its wheels.

No inquest will be held.

Entwistle Wins Tournament

ENTWISTLE—Playing errorless ball behind the fine pitching of Geo. Otto the Entwistle team won first money and the Daniel Trophy in the Sports Day and Tournament, held at Entwistle on July 7th.

The final game was nine innings of very good ball, with Entwistle defeating MacKay 2-1.

In the first game of the day MacKay defeated Brightbank 8-3.

Entwistle reached the final by defeating Stony Plain, last year's winners, 8-3. The winning pitcher in this game was Max Yeske.

The Girls' Softball was also won by Entwistle who were playing against Evansburg. It was a beautiful day and the turnout was large. In sports and financially it was a huge success. The women got busy at the serving and the "old streetcar" booth was humming with activity as meals and lunches were served. A dance was held in the Community Hall in the evening to wind up a perfect day.

Cold Lake Wins Glendon Ball Tourney

GLENDON—The Glendon Board of Trade sponsored a ball tourney on July 7.

Games played were St. Lina vs. Cold Lake with Cold Lake winning. The next game was played by Sandy Rapids and Therien Community. Sandy Rapids won the second game. The third game was played by Glendon and Cold Lake with Cold Lake winning. The final game was played by Cold Lake and Sandy Rapids.

Cold Lake took first prize, Sandy Rapids second and Glendon third. Proceeds from the booth went to the Board of Trade.

Lac la Biche Fisherman's Luck

LAC LA BICHE—This might sound like a tall fish story but none-the-less is true. E. A. Jones of Lac la Biche and his helper Gordon Edmonton of Edmonton, had the misfortune last Monday to pull out of a gang of two nets 94 black ducks and 200 lbs. of suckers.

The lake is reputed to have fish in it but it's going to take strong convincing to have these two gentlemen believe anyone.

We're hoping that others are having a bit more luck than they are, and when telling fish stories that they are mere figments of imagination rather than true.

Missionaries From Liberia And India To Address Convention

EDMONTON—"That Thy Way Be Known," will be the theme of the Western Canada Women's Missionary Convention, when they meet at St. John's Evangelical Church July 8 and 9.

Following registration Tuesday evening, delegates will be guests at a social evening at Trinity Lutheran Church.

Convention proceedings will open with the observance of Holy Communion Wednesday morning with Rev. R. Krisch and Dr. Franklin Clark Fry, President ULCA as celebrants. Morning session will include reports of Executive Officers.

Afternoon session will include reports from the Departmental secretaries and an address by Mrs. M. F. Rheingans, official delegate from the WMS, Milwaukee, Wis. Deaconess, Sister Bertha Becker will lead a panel discussion on the various missionary departments. Thursday sessions will include

Election of Officers followed by the Report of the Lutheran World Convention held at Hanover last year, delivered by Mrs. E. J. Treusch. An address by Mrs. H. Kleiner, recently returned from India will conclude the actual convention proceedings.

During the course of the convention a City Tour will be arranged for the benefit of the delegates.

Thursday evening a banquet will be held in the Corona Hotel, guest speakers will be Rev. H. Kleiner, Missionary from India and Rev. M. Ruccius, missionary from Liberia. Banquet guests will be entertained by a short program sponsored by the WMS Societies of St. John's and Trinity Lutheran Churches.

Rabies Takes Heavy Toll Dogs and Cats

EDMONTON—More than 530 dogs have been destroyed in the first five months of the year under an Edmonton by-law which re-

quires all dogs be kept off streets—the pound were 641 stray cats in unless tethered. Also destroyed by the five-month period.

ANOTHER Nash's Jubilee Tea & Coffee Winner

LOOK FOR THE "HIGH SIGN" OF QUALITY

**The Liberals say
they can't cut your taxes!**

WE CAN... WE WILL!

**the Main Issue
in this election is
YOUR MONEY!**

We will budget for Government's legitimate needs... we will stop budgeting for bloated surpluses which—in three years—took from the people's pockets the staggering sum of \$1,618,000,000 more than the Government needed.

We will end the shocking conditions in our Defence Department which the Government's own investigator, (Col. G. S. Currie) described as: "A general breakdown in the system of administration, supervision and accounting... Accounting records in a chaotic condition and of little use in determining the nature and extent of irregularities... Waste and inefficiency far more costly in loss than that covered by actual dishonesty".

We will, without impairing the efficiency of our Armed Forces, correct the appalling inefficiencies in the administration of the Department of National Defence.

We will provide the nation with an administration whose attitude towards the spending of public monies will be one of prudence and common sense. A new Government in itself will mean substantial savings to the taxpayer—it will replace a Government whose arrogant indifference to economy was best expressed by Mr. Howe's scornful remark, "What's a Million?". Or, "If they need a gold-plated piano it is our duty to buy it".

We will reduce or eliminate countless hidden, indirect taxes which grossly increase the cost of consumer goods, add to the grievous cost of living, increase the price of homes beyond the capacity of most of our people to pay, discourage saving and initiative.

VOTE

We will reduce federal taxes by at least \$500,000,000 a year... without reducing any pensions, family allowances, or other social security payments.

**\$500,000,000
TAX CUT
NOW!**

Inserted by the Progressive Conservative Party of Canada.

VOTE X
